Triumpf[®]

QUALITY AND SAFETY

Triumpf is a dynamically developing **German brand** of highly concentrated laundry detergents. Triumpf products have been developed on the basis of **modern formulas** and **the highest technological standards**. It is produced exclusively in certified factories and tested in independent laboratories. Innovative production technologies not only indicate **high product performance, convenient packaging and safety**, but also **consideration for the environment**. Triumpf is a brand loved by all consumers who value quality.

*The use of zeolites in laundry detergents causes its high concentration in house dust, especially in areas where the laundry is being dried and stored. Zeolites inhaled with air (for example in the form of dust) can be carcinogenic, causing very dangerous disease mesothelioma.

ECO-BOX TRIUMF COLOR

The innovative bag-in-box packaging system is a solution that is becoming more and more popular in the world. It is a combination of a barrier bag with a reusable valve and a cardboard box. This ecological and practical packaging uses **6 times less plastic** (compared to 3 one-liter traditional bottles). In combination with the ecological formula of the detergent, the ECO-BOX Triumpf Color washing liquid is a **unique**, highly concentrated product for all those who care about themselves and the environment. It has a strong cleaning effect, effectively removes stains and dirt from fabrics, and at the same time retains intense colors for a long time. It **does not contain phosphates or zeolites**. Thanks to the gel consistency it dissolves perfectly in water and rinses out of the fabric. The family packaging lasts up to 50 laundries.
